VIRGINIA AIR NATIONAL GUARD

VOLUME XXIV NO 7

Byrd IAP, Sandston, Virginia 23150

JULY 1980

## Logistics Office Stays Busy With Transients

During the past year approximately 100 C-130's have touched down at Byrd IAP, making the Logistics Office one of the busiest areas on base. The burly aircraft representing active ANG units from across the nation are ferrying mostly Army National Guard troops and equipment to and from summer encampments at Fort Pickett and Fort A.P. Hill.

192TFG Logistics personnel, CPT Allen Neergaard and MSG John Johnson, not only schedule arrival and

CPT Neergaard

MSG Johnson

departures, but also ensure that fire protection, maintenance, POL, command post and transportation services are available.

Hours of behind the scenes planning and coordinating before aircraft arrival often go unnoticed, said Maj Basil H. Evans, Logistics Management Supervisor. He also said that much praise should be given to the various base level support areas for their tireless efforts especially after normal duty hours.

On occasions Guard troops have been ferried by commercial airlines contracted by the military. This stretch DC8 serviced by the 192TFG during the June UTA was carrying Army National Guardsmen back to Puerto Rico upon completion of field training at Fort Pickett.

## Award Winners Announced In Quarterly Competition

During the June UTA, 11 members of the 192TFG were considered for quarterly awards. The Awards Program for Airmen is designed to select those individuals who have made significant contributions toward safety within their section, and who have demonstrated exceptional ability at their assigned job.

The NCO of the Quarter Award was taken by MSG Franklin W. Stanley, Jr. of Ashland, Va. MSG Stanley, who works in Quality Control and possesses a 7 level is responsible for the safety and procedural con-

MSG Stanley

trol of the ordnance section. He has been a technician for 8 years and a member of the Guard since 1967. Most of his spare time is spent working his 100 acre cattle farm with his father in Ashland.

SSG John W. Gilbert, a native Richmonder, was tapped as the Maintenance Man of the Quarter. Like the NCO winner, SSG Gilbert is a member of CAMRON, assigned to Avionic's Doppler Shop. He was stationed as a regular at Seymour Johnson AFB before coming into the Guard some 5½ years ago. He is married, has a 4 year old boy and enjoys bowling, leathercraft and all sports.

SSG Gilbert

The award winner for the Air Guardsman of the Quarter was MSG Rollin V. Rosser of the 192d Weapon Systems Security Flight. The New Kent resident, who has been with the Guard program for 13 years, works as a Security Police Supervisor. When he is not at the VaANG, MSG Rosser is patrolling the high-

MSG Rosser

ways as a Virginia State Trooper, in addition to having the unique distinction of belonging to the State Police's Search and Rescue Divers. He is married to Cpt Beverly H. Rosser of the 192d TAC Clinic, has an 8 month old boy and enjoys scuba diving, weight lifting, hunting and fishing.

Chaplain's Corner

Maj Xol Sant'Anna

Do unto others as you would like others to do unto you. We have heard this and accepted this statement as a solution for problems of our communities and world. It is impossible for anyone to contradict or deny the effectiveness of the golden rule. But one can be challenged to go beyond it.

In the Gospel of Jesus Christ we have two exciting parables: One tells us of a lost coin and of all the efforts made by its owner to find it. The other relates to the story of the lost son; the young man who left his father's house to be on his own and how, after many disillusionments, he returned home to be met by a loving, jubilant father.

The coin was lost through someone else's fault but the son went away deliberately, on his own free will. But it did not matter how each became lost. In both cases God seeks and finds. The clear message is that of love that knows no boundaries. The parables tell us of a God, the loving Father, who is not interested in retribution but who is active, seeking for his children.

Life is meaningful only in terms of relationships: relationship with God and with our fellow human beings. And as we graciously receive from God we graciously give to our fellow man. And in this relationship the parables challenge us to go beyond the golden rule. We are in life not for what we can get out of it, but for what we can add to it. This concept will lead us to better relationships, to efficiency and to happiness. It will bring life to our lives.

Safety

MSG Emery Zimmerman

Statistics show that drownings among Air Force personnel are on the increase. In most cases those involved in the mishaps had misjudged distances, over-exerted themselves physically and in some instances alcohol was a factor. Based on previous experience, eighteen persons could drown during the next four months.

With the coming of summer both

you and your family will probably be more involved in outdoor recreation such as swimming and boating. You should, at all times, be aware of the hazards involved while participating in those sports and make sure you know your physical limitations, and if you drink, do not drink to excess. Have a safe outing and do not become a statistic.

## Update

### Questions

The 20 OPSEC questions listed below are the second group to be used in developing a 25 question OPSEC test. The first group of 20 questions was in last month's Vanguard. The 25 question test will be administered to ALL unit personnel during the July 80, UTA. Your OPSEC representative/POC will administer this test. Anyone receiving a score below 80 (20 out of 25) will be scheduled to take another test.

Listed below are the OPSEC representatives/POC for the various units on base (with phone numbers).

### Answers On Page 5

1. Unclassified EFTO (Encrypt for Transmission Only) messages are handled administratively in the same manner as:
  - a. Secret messages.
  - b. SPECAT messages.
  - c.** Unclassified messages.
  - d. Confidential messages.
2. The device which represents a particularly dangerous threat to COMSEC is:
  - a. AUTOSEVOCOM.
  - b. Codes and ciphers.
  - c. Teletype.
  - d.** Ordinary telephone.
3. TEMPEST is defined as:
  - a. The mythological designator for off-line cryptosystems.
  - b.** An unclassified name referring to compromising emanations.
  - c. The mythological designator for on-line cryptosystems.
  - d. None of the above.
4. The overall USAF Communications Security posture depends upon:
  - a. The security clearance of individuals.
  - b. The type of equipment used to intercept, record, and analyze signals.
  - c.** Security practices and procedures applied by telecommunications system users.

- d. Information obtained from statistical studies of messages.
5. Which of the following involves safeguarding COMSEC material?
  - a. Emission security.
  - b. Cryptographic security.
  - c. Transmission security.
  - d.** Physical security.
6. Top Secret material is stored in facilities under the control of:
  - a. The MAJCOM Commander.
  - b.** The Top Secret Control Officer.
  - c. The Installation Commander.
  - d. The Chief of Staff USAF.
7. The unauthorized disclosure of defense information which could cause exceptionally grave danger to the national security is:
  - a. Confidential information.
  - b. Secret information.
  - c.** Top Secret information.
  - d. Formerly Restricted Data.
8. Information concerning a plan, acquired by unfriendly sources could impede execution of an operation is known as:
  - a.** Essential Elements of Friendly Information (EEFI).
  - b. Political Information.
  - c. Essential Elements of COMSEC Information (EECI).
  - d. Classified Defense Information.
9. Personnel who attempt to conceal or disguise classified or sensitive information discussed on the unsecure telephone:
  - a.** Are "talking around" the information.
  - b. Decrease the telephone COMSEC threat.
  - c. Have no effect on the telephone COMSEC threat.
  - d. Successfully protect the information.
10. A new type of aircraft is parked on the flightline and is visible from a public highway. The presence of this plane is:
  - a. Unclassified.
  - b. Classified.
  - c.** Unclassified, but of possible intelligence value.
  - d. Discussed with anyone who may be interested.
11. Which of the following is NOT considered classified defense information?
  - a. Confidential.
  - b. Secret.
  - c.** For Official Use Only.
  - d. Top Secret.
12. Security is the responsibility of the highest echelon down through:
  - a. Your immediate supervisor.
  - b.** You, the individual.
  - c. Unit security managers.
  - d. None of the above.
13. The Communications Security Education Program was developed to:
  - a. Produce increased awareness of the vulnerability of our communications systems and

- to help to plug information leaks.
- b. Give everyone something to do.
- c. Inform personnel of the dangers of poor COMSEC practices.
- d.** Both a and c.
14. The disclosure of classified information to an unauthorized person is a:
  - a. Proper procedure.
  - b. Practice requiring special approval.
  - c.** Compromise.
  - d. Essential Element of Friendly Information (EEFI).
15. When it is necessary to wear your restricted area badge?
  - a. During an ORI, MEI, or other inspection.
  - b. When the Security Police are controlling entry to the Restricted Area.
  - c. During emergency security operations.
  - d.** At all times while you are inside the Restricted Area (except immediate proximity of running aircraft engine).
16. The three types of sabotage are:
  - a. Threats, Blackmail, and Coercion.
  - b. Cold War, Propaganda, and Threats.
  - c. Arson, Blackmail, and Propaganda.
  - d.** Mechanical, Arson, and Explosive.
17. Security Operations are directed from:
  - a. Base Communications Center.
  - b. Wing Command Post.
  - c.** Central Security Control/Security Police Desk.
  - d. Base Headquarters.
18. If you lost a secret document, you would report it to:
  - a.** Your supervisor.
  - b. OSI.
  - c. Base Commander.
  - d. Command Post.
19. Official information or material which requires protection against unauthorized disclosure in the interest of national security shall be classified in one of three categories, namely:
  - a. Top Secret, Secret and COMSEC.
  - b.** Top Secret, Secret and Confidential.
  - c. Top Secret, Secret and For Official Use Only.
  - d. Secret, Confidential and Restricted.
20. The unauthorized disclosure of defense information that could cause damage to the national security is:
  - a. Top Secret information.
  - b. Security information.
  - c.** Confidential information.
  - d. Official information.

**ENLISTMENTS**

The following personnel were enlisted into the Virginia Air National Guard during the month of June. Those identified with (1) are prior service and those with (2) are non-prior service.

- 192D TACTICAL FIGHTER GROUP  
SSG PARIS, LOUIS JR (1)  
SGT STUCKEY, TYRONE E. (1)
- 149TH TACTICAL FIGHTER SQUADRON  
CPT GERRISH, DAVID C. JR (2)
- 192D CAMRON  
SSG HATCHER, RUSSELL (1)  
SGT FARMER, GEORGE N. (1)  
AB HORNER, MARK A. (2)
- 192D TACTICAL CLINIC  
AMN WEITZEL, DENISE M. (2)
- 192D CIVIL ENGINEERING FLIGHT  
TSG THOMPSON, RUSSELL L. JR (1)  
SGT BLAND, MAJOR E. JR (1)  
A1C NEWTON, DONALD E. JR (2)
- 192D COMMUNICATIONS FLIGHT  
SSG CLARK, KENNETH L. (1)

**PROMOTIONS**

Our congratulations go to the following personnel who were promoted to the grades indicated during the month of June.

- 192D CAMRON  
TSG BELL, CLYDE M.  
SSG WHITEHEAD, PRINCESS (NMI)  
A1C PARKER, SHERIDA T.  
A1C TAYLOR, JACQUELINE V.
- 192D COMBAT SUPPORT SQUADRON  
A1C BURRELL, PAULETTE (NMI)  
A1C GARLAND, CAROLYN T.
- 192D RESOURCES MANAGEMENT SQUADRON  
MSG PUGH, OMER W.  
A1C CHAMBLISS, JOYCE R.  
A1C PEARSON, GARY W.
- 192D TAC CLINIC  
TSG EVERETT, HAROLD E.
- 192D CIVIL ENGINEERING FLIGHT  
MSG BOWERS, DANIEL R.  
MSG EDGAR, SAM Y.  
MSG KNIESCHE, EARNEST B.  
MSG RINGSTAFF, GARY S.

**MOTOR**

If you own a motorcycle, make sure you see your squadron 1st sergeant for vehicle questionnaire, this UTA.

**CYCLES**

If you can play a bugle and would be interested in participating in the Retreat Ceremony on Saturday UTA's, please contact Maj Evans on extension 301, this UTA.

*Uniform Notes*

VaANG Women May Wear Blazer Style Coat, Skirt, and Slack Uniform.

If purchased at active duty base clothing sales stores at their own expense, VaANG women may begin to wear the pantsuit coat (blazer style), skirt and slack uniform which replaced the semi-box style coat and skirt as the issue uniform effective 1 Apr 80. THEY MAY NOT BEGIN TO ORDER THE NEW UNIFORM THROUGH BASE SUPPLY UNTIL FURTHER NOTICE, and the equipment management office determines that the old uniform is worn out.

Due to ANG funding constraints, the mandatory wear date for the totally subdued utility uniform has been extended from 1 Jul 80 to 1 Apr 81 for Air Guardsmen. Accordingly, ANG members may wear either the vivid or subdued configured utility uniform through 31 Mar 81.

There will be a mobility meeting on Sunday, 13 July 1980, at 1000 hours in the 149th Club. Officers and NCOIC's of the mobility work sections should attend. The purpose of the meeting is to answer all writeups received on the last mobility exercise.

MSG George T. Mallory of the 192d TAC Clinic is shown receiving the Virginia National Guard Commendation Metal from Colonel Alvah S. Mattox for being selected as the Outstanding Air Guardsman of the Year. The recipient was also chosen 1st runner up for Outstanding Guardsman of the entire state. Looking on is Maj Robert O. Seifert, Awards Project Officer and Cpt David L. Hudson, Flight Surgeon.

**UTA**

**12 Jul 13**

You really belong in the Air Guard.

## Social Actions Program

Reprinted below is paragraph 1-1, ANGR 30-2, dated 6 July 1976. This paragraph gives the basic concepts of the Air National Guard Social Actions Program as viewed by the Department of the Air Force and the National Guard Bureau.

\*\*\*\*

1-1. Basic Concepts. The Social Actions Office functions on behalf of the Air National Guard Military personnel.

a. Every commander, and his representative in the Social Actions Office, must be concerned for the well being and morale of the individuals and groups under his command. The effective implementation of the mission depends on this. Prime effort, however, must be directed toward resolving, eliminating, or neutralizing the negative impact of social and cultural conditions that have a direct negative impact on mission effectiveness.

b. Specific programs have been approved for drug and alcohol abuse control, equal opportunity and treatment and human relations education. Military manning has been authorized for these programs. Within the Social Actions Program there are Social Actions personnel, who on behalf of the commander take actions affecting the welfare of military personnel. The mandate of Social Actions is to assist commanders at all levels in dealing with specific social programs and contributing to others whenever possible. To do this, the Social Actions Office will (1) involve itself with all segments of the base community to better understand their problems; (2) identify those factors that contribute to increased stress and social disorder; (3) improve as much as possible those detrimental social factors that can be identified; (4) oversee a system of awareness training in specifically approved programs. The ultimate goal of the social actions program is to improve mission effectiveness by maintaining standards of performance, conduct and bearing in an environment free of the undermining efforts of discrimination, drugs and alcohol. Social actions personnel support the commander who is responsible for the program. In no case does social actions work apart from the Commander or is the program to be considered to be the responsibility of another person.

Members of the 192d Weapons Security Support Flight lower the flags during retreat ceremonies commemorating Flag Day, 14 June. Colonel Mattox, Group Commander, stated that the ceremony, which signals the end of the official duty day and serves as a formal observance for paying respect to the flag, will become a permanent part of the UTA's.

## General Huyser Discusses Compensation

SCOTT AFB, Ill. (AFNS) -- "Compensation is one of our biggest problems," said General Robert E. Huyser, commander-in-chief of the Military Airlift Command.

In an interview with Mr. Robert Blanchard, a reporter with the St. Louis Globe-Democrat, General Huyser said, "While the draft cures the problem of getting new people, it has no significant bearing on retaining our skilled people."

"The real problem of (military) compensation is that it has failed to keep up with inflation. It has lagged so far behind, it does not provide a decent standard of living."

"We do not intend for military pay to match civilian pay, because if it did, our people would be in uniform merely as a job and would not be here because they are dedicated. We have the only employer who may require one to lay his or her life down for our country," the general said.

From October 1972 to October 1979, the cost of living rose 78 percent but the regular military compensation--base pay plus allowances for housing and subsistence--rose only by 51 percent.

Your Chaplain is always as near as your telephone. Chaplain Sant'Anna is available 24 hours a day, everyday. His telephone numbers are:

Base - "A" 389 - "C" 66

Home - 737-0635

Church Office - 737-1527

Do not hesitate to give him a call if you think that he may be able to help you.

Money worries have become the "No. 1 people problems" in the Military Airlift Command, the general said.

Twenty percent of the Military Airlift Command enlisted members and 6 percent of the officers moonlight according to the general. And their wives have been forced to look for jobs.

"There are many ramifications in wives being forced to work, and 60 percent (of enlisted members' spouses) are now working. Many do not have the confidence that when they move they will be able to keep working," said General Huyser.

"These matters affect family life and society. There's not much need to have a strong defense if we do not have a strong society; a democratic country must have both," he said.

Thousands of service members have been receiving food stamps, "and that's deplorable for people willing to put their lives down for their nation," the general said.

General Huyser sees pay increases as essential throughout the coming decade simply to keep up with inflation and provide an acceptable standard of living.

General Huyser said retention of trained personnel is essential because "we do not have a piece of equipment that can operate without a person. The key ingredient is people."

(17.1%)

We only have until August  
To bring in those cans;  
And there won't be a lot of fanfare,  
And certainly no bands.

But it's something we can do,  
Which may help someone walk;  
And we can show our concern  
With other than talk!

If you bring your's  
And your neighbor's too,  
We could have aluminum cans  
Stacked clear to the Blue.

So ~~look~~ <sup>look</sup> around here and  
~~look~~ <sup>look</sup> around there,  
Bring your cans for support and  
Show them we care!

## DON'T LET COMPLACENCY BLOCK OUR SHOT!

### Adjutant General's Small Arms Combat Matches Held At Camp A.P. Hill

On 21 June 1980, the best National Guard shooters in Virginia gathered at Camp A.P. Hill for the Annual AG's Rifle and Pistol Combat matches. Two teams dominated the combat pistol matches. The 192TFG team and the 3/111th Air Defense Artillery Team from Suffolk, VA.

The 192TFG Team was defending state champions. They had a strong team again this year and were determined to keep the AG's rotating trophy at Byrd Field for another year.

When the team matches were over,

the 3/111th ADA won first place with a 1072 score. The 192TFG came in a close second place with 1058. Third place went to the 116th Inf. Brigade with 1016, and fourth place to the 2/111th Field Artillery with a 943 score.

Individual match winner went to TSG Raymond L. Bassetti of the 192TFG. Second Place was taken by SGT Mike Mumford of the 3/111th ADA, third place went to SGT Andy Mizelle of the 3/111th ADA and fourth place went to TSG Earl Clark of the 192TFG.
